We changed the manuscript name Kuna to Cuna during the review process for Williams and Williams (1985, Journal of Parasitology 71: 209-214). Cuna Williams and Williams, 1985, was preoccupied by Cuna Hedley, 1902 (Hedley, 1902, Memoirs of the Australian Museum 4: 314). We regret this mistake. Kuna is proposed as a nomen novum to replace Cuna Williams and Williams, 1985. The name of this cymothoid isopod genus remains in honor of the Kuna or Cuna Indians of the San Blas Islands off Panama.

We thank Dr. Kenneth J. Boss, Museum of Comparative Zoology, Cambridge, Massachusetts, for indicating our error.
