ASSOCIATION OF MARINE LABORATORIES OF THE CARIBBEAN

MEMBERSHIP DIRECTORY

MAY 1990

BY

DR. MELBORNE CARRIKER, DR. LUCY BUNKLEY-WILLIAMS
AND
MS. LINDA LEIDY
FORWARD

This is the first Membership Directory of the Association of Marine Laboratories of the Caribbean. It includes members and their addresses that may not be active members at the time of printing but have been members in the past, therefore, some addresses may not be accurate but are the last known address for that member. We regret any inconvenience this may cause, but we did not want to penalize former members.

We hope this will be a useful tool in communicating with the members of the AMLC. It is indexed by address location and scientific interest. The addresses and directors of our 25 institutional members are also included. We hope to issue a revised volume every 5 years.

Members of the AMLC will receive this volume and 2 newsletters (Caribbean Marine Science Newsletter) and a Proceedings volume each year for a nominal US$10 (US bank please) for TWO years membership (May 1990 dues level). Individual copies of this Directory may be obtained for US$10 from:

The Association, formerly known as the Association of Island Marine Laboratories of the Caribbean, attempts to encourage cooperation and communication among Caribbean marine laboratories and among scientists interested in the Caribbean. The Executive Board consists of one representative from each Institutional member laboratory; President, Executive Director, President-Elect, Vice-President, Secretary-Treasurer, and 3 Members-at-Large elected by popular vote at each meeting; and Newsletter Editor, Directory Editor, and Historian, appointed by the Board. The Association was organized in 1957 and holds Scientific and Executive Board meetings more or less annually.
